### Holly Hill

Holland's Hills was originally surveyed in 1663 and purchased in 1665 by Richard Harrison, Quaker Planter and ship owner. The house was built in three stages between 1698 and 1733 and is one of the largest and best preserved examples of the Medieval Transitional style of architectural in Maryland. Brice McAdoo Clagett, past MET Chairman and long time trustee, gifted preservation easements to the Maryland Historical Trust in 1977-78 to protect the National Register listed property. The Clagett family recently donated a conservation easement to the Maryland Environmental Trust, which will protect forever the entire 255 acre farm.

*The mission of the Maryland Environmental Trust is to provide landowners information and tools to permanently protect natural, historic and scenic resources in the state.*
